

Information Sheet - Adult Safeguarding - Six Key Principles underpin all Adult Safeguarding Work

Empowerment

People being supported and encouraged to make their own decisions and informed consent.

I am asked what I want as the outcomes from the safeguarding process and these directly inform what happens.

Prevention

It is better to take action before harm occurs.

I receive clear and simple information about what abuse is, how to recognise the signs and what I can do to seek help.

Proportionality

The least intrusive response appropriate to the risk presented.

I am sure that the professionals will work in my interest, as I see them and they will only get involved as much as needed.

Protection

Support and representation for those in greatest need.

I get help and support to report abuse and neglect. I get help so that I am able to take part in the safeguarding process to the extent to which I want.

Partnership

Local solutions through services working with their communities. Communities have a part to play in preventing, detecting and reporting neglect and abuse.

I know that staff treat any personal and sensitive information in confidence, only sharing what is helpful and necessary. I am confident that professionals will work together and with me to get the best result for me.

Accountability

Accountability and transparency in delivering safeguarding.

I understand the role of everyone involved in my life and so do they.
